PROJECTS

MedPlus (A medical app)   Ongoing

- Oversees India's private healthcare, curbing 80% exploitation in emergencies.
- A secure Java/XML app, using REST APIs for real-time data via token-authenticated Login/Register.
- Uses Fire Base for scalable management of the data, and SQL-Lite for the backend operations.

Titbits (A news App)   2023

- This mobile app offers current news from diverse sources, built on Java and XML. Users can explore news by category, search topics, utilizing a real-time news API for updates.

Hotel Management Project   2022

- A C++ OOPS project with menu-based choices, incorporating classes and functions.

CODING PROFILES

- LeetCode (200+ problems solved)
- GitHub

POSITION OF RESPONSIBILITY

- **Human Resource Generalist** at an NGO, WeCare (Oct 2022 - Present)
- Served as the Chairperson and empowered 50+ candidates in a transformative Women's Empowerment Committee, organizing 2 impactful events.
- Got selected in SIH'22 (college level, team lead)
